

Car Rentals - Fleet Guide - Cyprus

Using the driver fleet guide lets you explore among thousands of car rental Cyprus. Using the link on the right you can search various sites for availability of various models.

For car rental in Cyprus at this time, use the boxes to the left. Please note that we do not have extra charges for changes, cancellations, credit card, and all our prices are the lowest guaranteed!

The fleet guide tells you the type of car, the gearbox and if there is an air conditioning system. Below you can see information about the car as well as the number of doors and the number of seats. It is important to take into account several factors when choosing your vehicle, including the number of people will travel and how much luggage you have. In countries with hot climates, especially in the summer is always advisable to select a vehicle with air conditioning.

You can also make reservations for child seats on roof racks if available. These are not available in all locations where you are needed should be requested at the time of your reservation.

Child Seats

Child seats can be booked by hiring your car if necessary. Always remember safety conditions in the use of child seats:

The belt should not be too loose and should not be able to move more than 3 cm in any direction, the belts should be on firmer position can be comfortable for your child.

Make sure you follow the instructions as to how they should guide the belt through the seat.

Car rental children 12 and under should always be secured with seat belts in rear kathismata.li>

Children should never be placed in a seat where there is an active airbag

The straps and ties up loose ends of the seat should be secured properly.

Make sure the buckle is not supported against in the car seat because it might snap too much pressure

Make sure the child is too small or too large for car seat

If there is a crotch strap, it must be placed in the pelvic area and not the stomach, the diagonal strap should rest on the shoulder and not the neck. The belt should never be placed under the arm or behind their backs

For older children you are advised to bring a booster seat if required

Snow Equipment

Also available on request is snow chains, snow tires and roof racks for skis. These are available at the time you book your vehicle, it is not automatically included in the rent for the ski resorts, so we must be booked in advance. Please note that car rental Cyprus, availability may be limited in high season, so you should always book in advance!
